

The Carlton Junior Academy

Accessibility Policy and Plan

Adopted: March 2018

Review date: September 2025

As a statutory requirement this document outlines the work we are doing to improve access for disabled people at The Carlton Junior Academy. We have adopted this accessibility plan in line with the Special Educational Needs Policy with the aim of ensuring that our academy is socially and academically inclusive, that all pupils have access to a full curriculum, and that all pupils are appropriately challenged.

Our Special Educational Needs policy, (which can be found on the website) outlines the provision for supporting pupils with special educational needs and disabilities (SEND), and the academy's publication of equality information and objectives explains how we ensure equal opportunities for all our pupils, increased access to the curriculum, physical access to the academy and access to information particular to pupils with SEND. The Accessibility Plan below provides an outline of how the academy will manage this part of the SEND provision.

Please refer to our special educational needs policy for an outline of our full provision to support pupils with SEND.

This Accessibility Policy and Plan are drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. The Governors are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a prescribed period. The Accessibility Plan is supported by our Disability Action Plan. Both plans support equality objectives, to promote access for disabled and deaf people as pupils, parents/carers, staff, visitors and volunteers. This plan will be reviewed and updated alongside the Disability Action Plan.

Definition of special educational needs

In this plan, 'special educational needs' refers to a learning difficulty that requires special educational provision.

The SEND Code of Practice 0 to 25 Years (DfE, Jan 2015) says children have a learning difficulty or disability if they:

- have significantly greater difficulty in learning than the majority of children of the same age; or
- have a disability which prevents or hinders them from making use of facilities of a kind generally provided for children of the same age in mainstream schools or post-16 institutions; and
- are under compulsory school age and are likely to fall within either of the definitions above when they reach compulsory school age or would do so if special educational provision was not made for them.

Children must not be regarded as having a learning difficulty solely because the language or form of language of their home is different from the language in which they will be taught.

Disability is a term defined under the Equality Act 2010 as a physical or mental impairment which has a substantial adverse long-term effect on the individual's ability to carry out normal day to day activities.

Definition of special educational provision

For children aged two years or older, this is educational provision additional to, or otherwise different from, the educational provision normally available to pupils of the same age.

The SEN and Disability Act 2001 extended the Disability Discrimination Act 1995 (DDA) to cover education. Since September 2002, the Governors has had three key duties towards all people involved in The Academy, with disabilities, under Part 4 of the DDA:

- Not to treat anyone with a disability less favourably for a reason related to their disability.
- To make reasonable adjustments for anyone with a disability, so that they are not at a substantial disadvantage.
- To plan to increase access to education for disabled pupils.

This plan sets out the proposals to increase access to the facilities and resources of The Academy for pupils and adults with disability, in line with the three areas required in the DDA:

- Increasing the extent to which disabled pupils can participate in the curriculum of The Academy.
- Improving the environment of The Academy to increase the extent to which pupils and adults, with disability, can take advantage of education and associated services.
- Improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled.

Key Objectives

- To reduce and eliminate as far as possible barriers to curriculum access and secure full participation in The Academy community for pupils and prospective pupils with a disability.
- To provide a caring and friendly environment.
- To provide resources to cater for the needs of individual pupils.
- To promote an understanding of disabilities throughout and an awareness of the needs of pupils with a disability in our Academy.

The academy will have consideration in planning facilities for:

- Facilities for the visually impaired and/or hearing impaired Physical environment.
- Pupils with physical disabilities- wheelchair access, toilet and facility access.

The academy will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future project improvements and refurbishments of the site and premises, such as improved access, lighting, acoustic treatment and colour schemes, and more accessible facilities and fittings.

The Accessibility Plan will contain relevant and timely actions to:

- Secure access to the curriculum for pupils with a disability, expanding the curriculum as necessary to ensure pupils with a disability are as, equally, prepared for life as other pupils; this covers teaching and learning and the wider curriculum of the academy such as participation in after-school clubs, leisure and cultural activities or academy visits- it also covers provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe.

- Improve access to the physical environment of The Academy, adding specialist facilities as necessary – this covers improvements to the physical environment of The Academy and physical aids to access education within a reasonable timeframe.

- Improve the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include handouts, timetables, textbooks and information about The Academy and academy events; the information should be made available in preferred formats within a reasonable timeframe. The Accessibility Plan relates to the key aspects of physical environment, curriculum and written information.

It is a requirement that the Academy’s Accessibility Plan is resourced, implemented, reviewed and revised as necessary. It may not be feasible to undertake all of the works during the life of the Accessibility Plan and therefore some items will roll forward into subsequent plans. The progress of the plan will be reviewed.
